

In-Home HIV Test Brown Bag Lunch Discussion

Friday, Feb. 15, 2013

Get Informed, Get Involved
and Make a Difference!

What do we know about the In-Home HIV Test?

How much does it cost?

- Around \$60 at most retailers

What is its availability?

- Currently available at manufacturer's website: www.oraquick.com
- CVS Pharmacy
- Kroger
- Rite Aid
- Walgreens
- Wal-Mart

How are referrals addressed?

- OraQuick website has an option to “Find Counseling and Care”
 - www.hivma.org lists providers in Colorado
 - www.cdcpin.org is also a resource listed on the website for “organizations offering HIV/AIDS Services”
 - Website viewers are also offered an option to call a 24/7 support center, toll-free at 1-866-436-6527, and all you will be asked is your zip code or city in order to facilitate referrals.

Goals of this meeting:

1. Determine the best way public health messaging can address the home test and Linkage to Care (LTC) if consumers are preliminarily positive

Goals of this meeting:

2. Discuss how this will impact the content of the Colorado Comprehensive HIV Testing Plan (CCHTP)

Goals of this meeting:

3. Establish what providers and the public should know about the In-Home HIV Test

Discussion Topics:

1. Why influence does public health have on the In-Home HIV test?

Discussion Topics:

2. What does this group hope to provide the general population (as well as at-risk communities) regarding the In-Home HIV test?

Discussion Topics:

3. What stakeholders should be invited to future discussions?

Discussion Topics:

4. How might the In-Home test impact the Colorado Comprehensive HIV Testing Plan (CCHTP)?

Discussion Topics:

5. How do we address Linkage to Care (LTC), and referrals for treatment based on In-Home test?

Discussion Topics:

6. How should the HIV Home Test be addressed on related public health websites (CDPHE, DHRPC, DPH, Tri-County, Jefferson County, etc.), i.e. “How do we prepare stakeholders to address this”?

Discussion Topics:

7. Additional recommendations for consideration?
