Agenda

In-Home HIV Test Discussion Brown Bag Lunch Purpose:

Planning Council, service providers, community members and key stakeholders meet to discuss how partners in public health might address this promising, yet complicated factor regarding HIV linkage to care. Future meetings possible.

Introductions / Announcements (30 minutes)

- Please serve yourself and find a seat
- Name and Agency – Understand who is at the table and the expertise they bring.
- Decide on a decision making model for this meeting

Goals to Address

1. Determine the best way public health messaging can address the home test and Linkage to Care (LTC) if consumers are preliminarily positive
2. Discuss how this will impact the content of the Colorado Comprehensive HIV Testing Plan (CCHTP)
3. Establish what providers and the public should know about the In-Home HIV Test
