

## ***GET INVOLVED!***

Do you care about your sexual health? What about the sexual health of your peers? How about preventing the spread of HIV and STDs? Are you technologically savvy? Do you like to be a peer leader? Are you looking for a volunteer opportunity where you can provide valuable input?

## ***WE NEED YOU!***

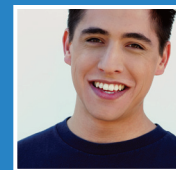

Facebook, MySpace, Twitter, Blogging, Texting... you are the EXPERT!

In early 2010, we are starting Regional Youth Sounding Boards made up of young people from multiple states.

**We need your input about how youth ages 16-24 experience sexual health messages!**

**Commitment only requires a few hours each month!**

We need an active, committed group of youth who can help inform us on how best to approach engaging peers in sexual health and HIV prevention messages.
